

myRIDE™

WIRELESS CONTROLLER

Rancho® goes wireless! Rancho's all new **Award-Winning**¹ MyRide™ Wireless Controller provides remote tuning for your RS9000XL™ and quickLIFT™ shocks. The new Rancho® MyRide™ Wireless Controller makes it easy for any driver to adjust their ride from firm to soft and anywhere in between, making ride control simple and precise. The Wireless Controller includes a variety of one-touch presets, including *Highway*, *Sport*, *Work/Tow/Haul*, *Off-Road*, and a driver-determined MyRide™, which allows the owner to set his or her own preferred ride setting and save it for future use.

The Wireless Controller's compact design allows for mounting or storage virtually anywhere within the vehicle. **Limited 2-year, 24,000-mile warranty**

¹ Judged **Best New Off-Road/4-Wheel Drive product** at the 2007 Specialty Equipment Market Association (SEMA) Show.
